

Sky Mountain Golf Estates Board of Trustee Candidate Bio's

The following Bios are in alphabetical order and are presented as written by the candidates with no editing.

Duane Anderson—For the past 5 years it has been my privilege to serve as a member of the SMGE Board of Trustees. Doris and I grew up in the city of Pasadena, California where we attended elementary, high school and what is now Point Loma Nazarene University. We were married in 1965. In 1966 the U.S. Army came calling for two years of military service. We have been blessed with four children and five grandchildren. All our children live in the San Clemente/San Juan Capistrano area of California. Three of our children are Educators and the other is a golf course employee. We also have a home in that area.

We have been property owners in Sky Mountain since 2001. We love the area and this residential community and have chosen to live here the majority of the year. We are active attendees of the First Southern Baptist Church of Hurricane. For over thirty years my employment was that of newspaper circulation. During that time I gained business world experience as a sole proprietor and then a corporate officer. Sky Mountain has challenges ahead and I would like to help in the solution from maybe a slightly different perspective being a part time resident.

Patty Gallagher- My name is Pat Gallagher and I have lived in Sky Mountain for the past 12 years. I was born and raised in San Diego, spent my career in Banking(30 years) and then decided to work at something less stressful, so I went to work for the Welk Resort in Escondido. This was my first taste of the beauty and serenity that a golf course could offer. I raised two daughters, who now both live in Nevada and I have four grandchildren. California just became too crowded people and traffic wise so I decided I needed to change my environment. I came to St George looking for a house, the realtor suggested Hurricane. Long story short I found Sky Mountain and decided this was the place for me. Being single the closeness of the community is very important. Everyone watches out for the other one in one way or another here. We have a caring and beautiful community in Sky Mountain and I would like to be a part of keeping it that way for the current and future residents.
