

Thomas Eckhardt – My wife and I moved to Sky Mountain from upstate New York over five years ago, needless to say we enjoy living here, with all the nice neighbors and beautiful scenery!

Being a trained scientist, I have spent the major part of my life in the biotechnology industry, both in large Pharma and small start-up companies. As a senior executive, I spent the last decade interacting with government agencies around the world.

In retirement here, I spending considerable time enjoying the outdoors, and photography, both the grandiose landscape as well as some of the little hummingbirds

For the last three years I have enjoyed been on the board of the Masters Association, and would love to continue serving the Masters Community.

Marilyn Nelson- I have been a resident of Sky Mountain for 21 years in July. My husband Kaye and I moved here after both of us retired from our careers in Salt Lake City and wanted to enjoy more sun and clear skies. I have a BS in Nursing and a BS in History neither of which give me any special qualifications to serve on your HOA Board. I just like to be useful. My husband passed away nearly 10 years ago so I like to keep busy and I do that by serving on the HOA Board and volunteering at Dixie Regional Medical Center. This will be my fifth 2 year term if you as residents vote to keep me in for another round.
